Replacing residential backyards and front yards, lawns with native natural field grass, fruit trees, vegetables,

foods, circle and row cropping

Consider replacing lawns with natural field grass native to areas,
fruit trees planted around the perimeters of front and back yards
food, vegetable, plant growing,
row and circle cropping edible vegetables

for vegetable gardening
soil made of mixed compost and mulch or coconut coir
cow, chicken, turkey, worm, etcetera manures
or natural biodynamic organic fertilizer options

or different fertilizer options
over or mixed with native earth

Consider and consider how to grow food without animal products or synthetic chemicals

If animal manure is available and acceptable, it provides nutrients

Circle or row crop food, vegetables, corn and more
plant starting early season, monthly north to south

lawn and battery operated garden hose timers can water regularly

circle cropping can be watered by single 360 degree short or long range sprinkler and works great in fields,
mowed, raked and tilled

Support chemical fertilizer advances, healthier, cleaner,

Some possible considerations possibly applicable to lawsuits about people imprisoned after court proceedings excluding tech, tech operators. Check state laws about **principals, accessories, misprision, perjury, fraud, false statements, evidence** and consider about applications to tech operators “in” associated to alleged violations of laws people were declared guilty and put in prison. Consider suing about court proceedings that excluded tech operators associated to alleged violations of laws that people imprisoned were convicted about.

Considerations about

a person being able to operate tech to type on a normal “out” home office touch screen computer

a normal tech operating person being able to operate tech “in” to type on a normal “out” home office touch screen computer

A person operating “tech” “in” to “run” a prepared “tech” “program” to type at a touch screen computer “touch” and or touch screen phone “out”.

200705 2023 PST Sonoma County California Benjamin Coxon CADL D4315123

Considerations about:

“I” and first person singular

False negatives, false “not”s

There might exist people operating tech to cause people to experience states of want, energy, motivation.

There might exist people operating tech to cause people to act.

Might it be considered that people have been human trafficked for “O”, know, knowledge, information?

Consider speaking openly about tech

Parents and legal guardians, consider speaking to children that you parent or legally guard openly, honestly about tech.

Tech might be a name for something that has parts that might possibly be or have been commonly known as “in” and, or “hat”

Caution, volatile and possibly dangerous issues might exist

I suspect there exists digital data records of people's thoughts, memories, sensory perceptions, perceptions, experiences and possibly more.

I suspect there exists records about acts of advance tech

I suspect there exists records of who operated advance tech to act, act on people, how it acted on people and possibly more.

I suspect there might exist records of how people were effected by advance tech and how people were effected by advance tech operated to effect people, who, when, where and how a person operated advance tech to effect a person and who, where and how that person was effected, including how the advance tech acted on the person acted on and how the advance tech was operated by the person operating the advance tech.

Caution, volatile and possibly dangerous issues might exist
Caution, volatile and possibly dangerous issues might exist

I suspect some people operating advance tech might be able to speak while “out” about how, what and when they observed while “in”

I suspect people “in” operating advance tech might be able to communicate to people “out”.

I suspect data records of at least some people’s thoughts, memories, sensory perceptions and possibly more exists in the format of an advance technology, something similar, something else, or not;

I suspect there might exist reliable data records of who, where they are, when, how, people operated advance tech to cause advance tech to act on a different person, who that person is, where they were, how they were effected.

Is it possible for normal people to operate an advance tech to prepare an advance tech program to cause a different advance tech program to operate advance tech to cause real physical pressure to be pressed against a normal touch screen computer to cause to be typed a normal word processor document to be printed in printer toner on paper?

Is it possible for normal people to operate advance tech to manipulate the current of a wire from a dvd player turned on and sending electrical current to a television and to record the audio and video caused to appear and sound from the television to be recorded by a separate audio video recording device connected to the television?

Is it possible for people to cause audio and video to appear and sound on a normal television or computer screen and speakers by people operating advance tech to manipulate electrical current going through normal circa 2000 stereo audio and video cables going from a normal audio and video playing device such as a dvd player that is plugged in and on to a normal television or normal computer and normal audio speakers; if it is it possible to record the audio and video appearing and sounding to be recorded by the computer or a separate normal audio video recording device connected to the television or computer by circa 2020 normal audio video recording cables?

Caution, volatile and possibly dangerous issues might exist.

CAPC 535

535. Every person who obtains any money or property from another, or obtains the signature of another to any written instrument, the false making of which would be forgery, by means of any false or fraudulent sale of property or pretended property, by auction, or by any of the practices known as mock auctions, is punishable by imprisonment in a county jail not exceeding one year, or by imprisonment pursuant to subdivision (h) of Section 1170, or by a fine not exceeding two thousand dollars (\$2,000), or by both that fine and imprisonment, and, in addition, is disqualified for a period of three years from acting as an auctioneer in this state.

CAPC 536

536. Every commission merchant, broker, agent, factor, or consignee, who shall willfully and corruptly make, or cause to be made, to the principal or consignor of such commission merchant, agent, broker, factor, or consignee, a false statement as to the price obtained for any property consigned or entrusted for sale, or as

to the quality or quantity of any property so consigned or entrusted, or as to any expenditures made in connection therewith, shall be deemed guilty of a misdemeanor, and on conviction thereof, shall be punished by fine not exceeding one thousand dollars (\$1,000) and not less than two hundred dollars (\$200), or by imprisonment in the county jail not exceeding six months and not less than 10 days, or by both such fine and imprisonment.

CAPC 536a

536a. It is hereby made the duty of every commission merchant, broker, factor, or consignee, to whom any property is consigned or entrusted for sale, to make, when accounting therefor or subsequently, upon the written demand of his principal or consignor, a true written statement setting forth the name and address of the person or persons to whom a sale of the said property, or any portion thereof, was made, the quantity so sold to each purchaser, and the respective prices obtained therefor; provided, however, that unless separate written demand shall be made as to each consignment or shipment regarding which said statement is desired, prior to sale, it shall be sufficient to set forth in said statement only so many of said matters above enumerated as said commission merchant, broker, factor, or consignee may be able to obtain from the books of account kept by him; and that said statement shall not be required in case of cash sales where the amount of the transaction is less than fifty dollars. Any person violating the provisions of this section is guilty of a misdemeanor.

CAPC 115

115. (a) Every person who knowingly procures or offers any false or forged instrument to be filed, registered, or recorded in any public office within this state, which instrument, if genuine, might be filed, registered, or recorded under any law of this state or of the United States, is guilty of a felony.
- (b) Each instrument which is procured or offered to be filed, registered, or recorded in violation of subdivision (a) shall constitute a separate violation of this section.
- (c) Except in unusual cases where the interests of justice would best be served if probation is granted, probation shall not be granted to, nor shall the execution or imposition of sentence be suspended for, any of the following persons:
- (1) Any person with a prior conviction under this section who is again convicted of a violation of this section in a separate proceeding.
 - (2) Any person who is convicted of more than one violation of this section in a single proceeding, with intent to defraud another, and where the violations resulted in a cumulative financial loss exceeding one hundred thousand dollars (\$100,000).
 - (d) For purposes of prosecution under this section, each act of procurement or of offering a false or forged

instrument to be filed, registered, or recorded shall be considered a separately punishable offense.

(e) (1) After a person is convicted of a violation of this section, or a plea is entered whereby a charge alleging a violation of this section is dismissed and waiver is obtained pursuant to *People v. Harvey* (1979) 25 Cal.3d 754, upon written motion of the prosecuting agency, the court, after a hearing described in subdivision (f), shall issue a written order that the false or forged instrument be adjudged void ab initio if the court determines that an order is appropriate under applicable law. The order shall state whether the instrument is false or forged, or both false and forged, and describe the nature of the falsity or forgery. A copy of the instrument shall be attached to the order at the time it is issued by the court and a certified copy of the order shall be filed, registered, or recorded at the appropriate public office by the prosecuting agency.

(2) (A) If the order pertains to a false or forged instrument that has been recorded with a county recorder, an order made pursuant to this section shall be recorded in the county where the affected real property is located. The order shall also reference the county recorder's document recording number of any notice of pendency of action recorded pursuant to paragraph (2) of subdivision (f).

(B) As to any order, notice of pendency of action, or withdrawal of notice of pendency of action recorded pursuant to this section, recording fees shall be waived pursuant to Section 27383 of the Government Code.

(f) A prosecuting agency shall use the following procedures in filing a motion under subdivision (e):

(1) Within 10 calendar days of filing a criminal complaint or indictment alleging a violation of this section, the prosecuting agency shall provide written notice by certified mail to all parties who have an interest in the property affected by the false or forged instrument, or in the instrument itself, including those described in paragraph (5).

(2) (A) Within 10 calendar days of filing a criminal complaint or indictment alleging a violation of this section, the prosecuting agency shall record a notice of pendency of action in the county in which the affected real property is located.

(B) Within 10 calendar days of the case being adjudicated or dismissed without obtaining an order pursuant to subdivision (e), the prosecuting agency shall record a withdrawal of the notice of pendency of action in the county where the affected real property is located.

(3) The written notice and notice of pendency of action described in paragraphs (1) and (2) shall inform the interested parties that a criminal action has commenced that may result in adjudications against the false or forged instrument or the property affected by the false or forged instrument, and shall notify the interested parties of their right to be heard if a motion is brought under subdivision (e) to void the false or forged instrument. The notice shall state the street address, if available, and the legal description of the affected real property.

(4) Failure of the prosecuting agency to provide written notice or record a pendency of action as required under paragraphs (1) and (2) within 10 calendar days shall not prevent the prosecuting agency from later making a motion under subdivision (e), but the court shall take the failure to provide notice or record a pendency of action as required under paragraphs (1) and (2) as reason to provide any interested parties additional time to respond to the motion. Failure of the prosecuting agency to so notify interested parties under this subdivision or record a pendency of action as required under paragraphs (1) and (2) within 10 calendar days shall create a presumption that a finding as described in paragraph (9) is necessary to protect the property rights of the interested party or parties.

(5) If the instrument sought to be declared void involves real property, "interested parties" include, but are not limited to, all parties who have recorded with the county recorder in the county where the affected property is located any of the following: a deed, lien, mortgage, deed of trust, security interest, lease, or other instrument declaring an interest in, or requesting notice relating to, the property affected by the false or forged instrument as of the date of the filing of the criminal complaint or indictment.

(6) Any party not required to be noticed under paragraph (1) or (5) who nonetheless notifies the prosecuting agency in writing of the party's desire to be notified if a motion is brought under subdivision (e) to void the

false or forged instrument shall be treated as an interested party as defined in paragraph (1) or (5).

(7) The court shall set a hearing for the motion brought by the prosecuting agency under subdivision (e) no earlier than 90 calendar days from the date the motion is made. The prosecuting agency shall provide a copy by certified mail of the written motion and a notice of hearing to all interested parties described in paragraphs (1), (5), or (6), and all other persons who obtain an interest in the property prior to recordation of notice of pendency of action no later than 90 days before the hearing date set by the court. The notice shall state the street address, if available, and the legal description of the affected real property.

(8) At a hearing on a motion brought by the prosecuting agency under subdivision (e), the defendant, prosecuting agency, and interested parties described in paragraphs (1), (5), or (6), shall have a right to be heard and present information to the court. No party shall be denied a right to present information due to a lack of notice by the prosecuting agency or failure to contact the prosecuting agency or the court prior to the hearing.

(9) (A) At a hearing on a motion brought by a prosecuting agency under subdivision (e), if the court determines that the interests of justice or the need to protect the property rights of any person or party so requires, including, but not limited to, a finding that the matter may be more appropriately determined in a civil proceeding, the court may decline to make a determination under subdivision (e).

(B) If, prior to the hearing on the motion, any person or party files a quiet title action that seeks a judicial determination of the validity of the same false or forged instrument that is the subject of the motion, or the status of an interested party as a bona fide purchaser of, or bona fide holder of an encumbrance on, the property affected by the false or forged instrument, the court may consider that as an additional but not dispositive factor in making its determination under subdivision (e); provided, however, that a final judgment previously entered in that quiet title action shall be followed to the extent otherwise required by law.

(g) As used in this section, "prosecuting agency" means a city attorney, a district attorney, the Attorney General, or other state or local agency actively prosecuting a case under this section.

(h) An order made pursuant to subdivision (e) shall be considered a judgment, and subject to appeal in accordance with, paragraph (1) of subdivision (a) of Section 904.1 of the Code of Civil Procedure.

CAPC 115.1

115.1. (a) The Legislature finds and declares that the voters of California are entitled to accurate representations in materials that are directed to them in efforts to influence how they vote.

(b) No person shall publish or cause to be published, with intent to deceive, any campaign advertisement containing a signature that the person knows to be unauthorized.

(c) For purposes of this section, “campaign advertisement” means any communication directed to voters by means of a mass mailing as defined in Section 82041.5 of the Government Code, a paid television, radio, or newspaper advertisement, an outdoor advertisement, or any other printed matter, if the expenditures for that communication are required to be reported by Chapter 4 (commencing with Section 84100) of Title 9 of the Government Code.

(d) For purposes of this section, an authorization to use a signature shall be oral or written.

(e) Nothing in this section shall be construed to prohibit a person from publishing or causing to be published a reproduction of all or part of a document containing an actual or authorized signature, provided that the signature so reproduced shall not, with the intent to deceive, be incorporated into another document in a manner that falsely suggests that the person whose signature is reproduced has signed the other document.

(f) Any knowing or willful violation of this section is a public offense punishable by imprisonment in a county jail not exceeding 6 months, or pursuant to subdivision (h) of Section 1170, or by a fine not to exceed fifty thousand dollars (\$50,000), or by both that fine and imprisonment.

(g) As used in this section, “signature” means either of the following:

(1) A handwritten or mechanical signature, or a copy thereof.

(2) Any representation of a person’s name, including, but not limited to, a printed or typewritten representation, that serves the same purpose as a handwritten or mechanical signature.

CAPC 115.5

115.5. (a) Every person who files any false or forged document or instrument with the county recorder which affects title to, places an encumbrance on, or places an interest secured by a mortgage or deed of trust on, real property consisting of a single-family residence containing not more than four dwelling units, with knowledge that the document is false or forged, is punishable, in addition to any other punishment, by a fine not exceeding seventy-five thousand dollars (\$75,000).

(b) Every person who makes a false sworn statement to a notary public, with knowledge that the statement is false, to induce the notary public to perform an improper notarial act on an instrument or document affecting title to, or placing an encumbrance on, real property consisting of a single-family residence containing not more than four dwelling units is guilty of a felony.

CAPC 182

182. (a) If two or more persons conspire:

(1) To commit any crime.

(2) Falsely and maliciously to indict another for any crime, or to procure another to be charged or arrested for any crime.

(3) Falsely to move or maintain any suit, action, or proceeding.

(4) To cheat and defraud any person of any property, by any means which are in themselves criminal, or to obtain money or property by false pretenses or by false promises with fraudulent intent not to perform those promises.

(5) To commit any act injurious to the public health, to public morals, or to pervert or obstruct justice, or the due administration of the laws.

(6) To commit any crime against the person of the President or Vice President of the United States, the Governor of any state or territory, any United States justice or judge, or the secretary of any of the executive departments of the United States.

CAPC 422.6

422.6. (a) No person, whether or not acting under color of law, shall by force or threat of force, willfully injure, intimidate, interfere with, oppress, or threaten any other person in the free exercise or enjoyment of any right or privilege secured to him or her by the Constitution or laws of this state or by the Constitution or laws of the United States in whole or in part because of one or more of the actual or perceived characteristics of the victim listed in subdivision (a) of Section 422.55.

(b) No person, whether or not acting under color of law, shall knowingly deface, damage, or destroy the real or personal property of any other person for the purpose of intimidating or interfering with the free exercise or enjoyment of any right or privilege secured to the other person by the Constitution or laws of this state or by the Constitution or laws of the United States, in whole or in part because of one or more of the actual or perceived characteristics of the victim listed in subdivision (a) of Section 422.55.

(c) Any person convicted of violating subdivision (a) or (b) shall be punished by imprisonment in a county

jail not to exceed one year, or by a fine not to exceed five thousand dollars (\$5,000), or by both the above imprisonment and fine, and the court shall order the defendant to perform a minimum of community service, not to exceed 400 hours, to be performed over a period not to exceed 350 days, during a time other than his or her hours of employment or school attendance. However, no person may be convicted of violating subdivision (a) based upon speech alone, except upon a showing that the speech itself threatened violence against a specific person or group of persons and that the defendant had the apparent ability to carry out the threat.

(d) Conduct that violates this and any other provision of law, including, but not limited to, an offense described in Article 4.5 (commencing with Section 11410) of Chapter 3 of Title 1 of Part 4, may be charged under all applicable provisions. However, an act or omission punishable in different ways by this section and other provisions of law shall not be punished under more than one provision, and the penalty to be imposed shall be determined as set forth in Section 654.
